Agendas and Declaration Form

Post contesting for: UG Senator

Name: Sarth Vitekar

Nick Name.:

Tagline (Punch line): Breaking barriers, building a future.

Agendas:

1. Collaborating with Rehabilitation centres to start counselling sessions for students affected by substance abuse.

Domain: Welfare board.

Proposal: With an increase in the number of students affected due to substance abuse, I propose to start counselling process with the help of the various rehabilitation groups in the city.

Possible solution/Plan of action : I aim to coordinate with the Institute Welfare board, our social clubs and the rehabilitation centres of Guwahati city, and conduct counselling sessions and other activities.

2. Starting the students' official media body.

Proposal: The Institute certainly lacks an official free media body, and I aspire to establish such an organization.

Possible solution/ Plan of Action: I propose to form a panel of students with a great enthusiasm in journalism who will coordinate with SWC to establish a completely autonomous student media body. Taking inspiration from media bodies of different IITs.

3. Extension of city-campus bus service on weekends till 10p.m.

Domain : Welfare board and Students' Affairs.

Proposal: Many of the students are forced to take cabs which are pretty expensive, from the city to the campus on weekend nights due to the unavailability of buses at that time. Thus to dilute this situation, I aim to extend the city-campus bus service till 10 p.m. for the easy commutation from city to the institute.

Possible solution/Plan of action : I will discuss the issue with the DoSA and then with the concerned officials of Green Valley bus so as to come to an agreement and start the service on a trial basis and if successful, then start it on a permanent basis.+

4. Increasing the number of food trucks and exploring the possibility of subsidizing restaurants in food court.

Domain: Students' Affair

Proposal: Seeing the popularity of Rolls Mania among the students I propose to increase the number of food trucks in the campus thus making food available the entire night.

Possible solution/Plan of Action: With the proper consultation from the students' senate, I will talk with various food vendors from the city and try to bring in more number of food trucks in the institute. Along with this, I will also talk with the restaurants in the food court so as to make food available at subsidized rates.

5. Establishing a multi-purpose make-shift theatre on the 2nd floor of New SAC.

Domain: Establishment Section.

Proposal: With the availability of free space on the 2nd floor of New Sac, I propose to establish a make-shift multi-purpose theatre where various activities like movie screening can be done and also can be used as a planetarium.

Possible solution/Plan of Action: I will work with the Establishment section and the Students' Affairs to form a multi-purpose theatre which can also be used as a planetarium and for screening movies on various occasions.

6. Setting up a water cooler on the SAC grounds (i.e. Football/Hockey fields)

Domain: Sports Board and Maintenance section.

Proposal: As there is no proper and immediate source of potable water on the grounds, I propose to set up a water cooler on the grounds itself.

Possible solution/Plan of Action: I will have a proper discussion with the sports board, identify a suitable place and then work alongside the maintenance section so as to set up the water cooler.

Experiences (Credentials if any):

Branch Representative – Mechanical batch of '21

Senior Core team member – Mechanical Engineering Student Association

Apart from these above, I have also worked for many different teams, events etc. and have gained a lot of working experience in management, interaction with the residents and have the knowledge of policy making and implementation procedures.
