Hostel: Umiam

Dept. /Branch: Mechanical Engg  
Semester: 6  
Active Backlogs (if any): None  
Contact No.: 9113356699  
Room No.: A151

Signature with date:

#### **Proposed by:**

Name: Aditya Raj  
Roll No.: 160108001  
CPI: 6.16  
Email Id: Aditya\_raj7@iitg.ac.in  
Hostel: Umiam

Dept. /Branch: EEE  
Semester: 6  
Contact No.: 9957996230  
Room No.: A240

Signature with date:

#### **Seconded by:**

Name: Parth Bajaj  
Roll No.: 17102047  
CPI: 6.23  
Email Id: parth170102047@iitg.ac.in  
Hostel: Umiam

Dept. /Branch: ECE  
Semester: 4  
Contact No.: 9611595592  
Room No.: B247

Signature with date:

# STUDENTS' GYMKHANA ELECTIONS

## Year 2019-20

Indian Institute of Technology, Guwahati

File Ref: IITG/SAC/GYM19/Elections/Agenda/

### Agendas and Declaration Form

Post contesting for: Vice President, SGC

Name: Anmol Deep

Nick Name.: Anmol

Tagline (Punch line): **Results come with resolve!**

**Agendas:**

### **Increasing accountability of Gsec meter**

- GSec meter will include all the work done by the gymkhana members, not just agenda.
- The score of Gsec meter will be mentioned on the certificate provided for the POR. (e.g. pie chart)

### **Increase the reach of the elected representatives**

- Work to increase personal interaction
- Hold regular sessions for one-on-one interaction between the students and representatives.
- This will keep the senate informed about the real issues faced by the residents of the campus and will instill the confidence that they are not alone and the student representatives will stand hand in hand with them in all circumstances

### **Empower the senate**

- Delegate the elected representatives to take part in all spheres of Institute policymaking and put forward a diverse and fair opinion of the students everywhere.
- Previously all of the committee meetings were attended to by the vp or his nominee, now, when individuals will be working specifically with different sections, it will create more scope of improvement

### **Inclusion of Alumnus in Institute Governance**

- With our institute completing a quarter of century of age, our alumnus have reached several milestones in all walks of life as well as their fields of expertise.
- Invite our alumni to contribute to the institute by bringing new initiatives to the table.

### **Pre placement training and skill development**

- Establish a cell under mentorship of Centre for Career Development to work for the skill development courses tailored to the needs of the students.
- The training imparted will help the students to improve their performance and confidence in the placements by the help of industry experts.
- A structured approach to learning will give them more time to explore other fields.
- Career counselling service to be arranged for GATE, Civil Services, MBA etc for students.
- This will help the students to decide in a very early point in their lives to pursue a structured approach to exploring all career options.

### **Pre Placement Test Series from early on and regularly to assess and improve skill level**

Note: These initiatives will be open for all

### **Academic performance improvement programme**

- Track academic performance early on from the semester and make sure that the necessary help is provided from the department.
- The students with low performance can be helped in ways such as assigning a course mentor, interaction with the instructor and arrangements of practice sessions.
- The gymkhana representatives will be needed here to take initiative and co-ordinate the programme with the professors and the departments.

### **Placement buddy Programme**

- To reward the people who come forward to help out their peers, seniors or juniors during stressful placement time
- To work for better management of people during placements and ensure no one gets left behind due to lack of support and guidance

### **Incubation centre for UG and PG startups**

- Currently TIC incubates only startups in which a faculty is a part of. Only student startups aren't allowed
- TIC is not student involved, for that we have to ensure that the campus benefits from it
- TIC Processes should be more transparent to campus
- UG and PG representatives should be there in the incubation centre to increase student involvement.

### **Reorganization of minor courses**

- No practicals : The courses are not able to give the students the practical knowledge, which is necessary for the overall understanding of the topic.
- Introduction of new minors

### **Establish a platform for grievance redressal of students**

- There are a lot of issues which do not come under the purview of rules and regulations which are in place. To address those concerns of the students, a human component is needed. Especially, as we go to higher academics these issues prevail more.
- This platform will listen to the problems of the people and identify its root cause, which then can be brought up into discussion in the senate in a structured manner for fast track resolution.

### **Inclusion of Students in SA and NSO course coordination**

- Assign a student representative to act as a link between students, sports board or academic board for SA courses.
- The representative will help with course adjustment,

### **Steps to tackle high stress among students**

- Improving currently operational recreational spaces by installation of stress busters like punching bags, cosy seating environment.

### **Cultivate the culture of collaboration**

- By helping people come together in groups for exam, placement preparation and making the whole process easier.

### **Bridge the gap between freshmen and seniors during first 3 months**

- Due to introduction of the strict no contact policy, the freshmen have been increasingly cut off and this has resulted in a lack of interest in extra curriculars.
- Introduce a training programme to sensitize and train willing students
- On completion of training, appoint them as student counselors and with their help, break the ice with freshers during the 3 month period when interaction is limited.

**MTech students should be encouraged to go for internships**

- I will ensure that the procedure for applying for internships for MTech students is made as easy as possible, so that the students are able to focus more on their preparations.

**Provision to repeat a course for grade improvement****Ergonomically designed chairs in hostel rooms to support studying for longer hours**

- Our unconscious tricks us in many ways we don't understand. When it is about maintaining concentration, It is crucial to maintain a certain posture, have no distractions and discomfort.
- The problem with the current chairs is that they are not designed for someone to sit on them for hours in a row.
- I will ensure that the current chairs are replaced with adjustable, ergonomically designed and comfortable chairs.

**Arrangement of regular visits of veterinarian to the campus to tend to animal healthcare.**

- Vaccination of dogs and cats to stop spread of communicable diseases.

**Common area development**

- There are restrictions in doing discussions in library and cc, so i will initiate development of infrastructure in areas identified as a hotspot for discussions.

**Provision of surprise checking of Mess be done regularly by HAB**

- I will focus on increasing the frequency of the surprise checks
- The major concern which I have found to be true in most of the hostels after my work on mess system improvement is quality control
- Quality control can only be achieved if there is regular testing and logging of replenishment of stock

**GPS live tracking service to be implemented in IITG Buses**

- Currently there is no way we can track buses. So i propose installation of bus tracking system with the help of technical board.

**Increase transparency in working of the sports board**

- All financial transactions should go through the general secretary sports board.
- This will increase the clarity of information and ensure easy access to information of decisions to be taken for sports board.

**Elective Courses Feedback should be public**

- The course feedback by students who have passed the course earlier will help the students decide which course to choose.
- In addition to this, the career development of an academic professional in IITs is not impacted by the quality of teaching.
- Hence we can also consider pushing for the feedback of all courses to be made public in the near future.

### **Proposal for maintenance secretary of Academic Complex**

- Academic Complex is the most crucial part of any institute and there is no student representative for its maintenance. So I propose a new post for the maintenance of Academic Complex.

### **Students should be able to track their academic progress through a portal any time**

- Currently there is no provision for knowing the current performance status relative to other students registered for the course. So i propose a portal through which student can readily access his/her marks and class standing, class average, class highest, and other such statistics.

### **Lost and found register and lost box at equal distance on roads**

- Create a protocol for the security personnel for the handling and management of items found or reported found by other residents.
- Management of the register of all lost and found items and a portal to be made in the future

### **Travel grant parity over all departments**

- The grant provided for travel varies from department to department
- As a student of the institute, one should be given equal opportunity for travelling inside the country or abroad irrespective of their department.
- Amount of travel grant should be fixed for every department and should be increased every year in accordance with the inflation and other economic factors related to increase in travel expenses.

### **Work to tackle language based groupism**

- Initiate collaboration between students of various linguistic groups
- Introduce more regional language learning programmes by student collaboration
- Encourage students to form multicultural teams to organise regional festivals

### **Proposal for construction of parking lots**

- Construction of parking lot in CC near library, in front of KV school, Faculty gate, etc.

### **Push for increase in contingency fund**

### **Inter IIT preparations should start early**

- I will push for the Inter IIT summer camp to start as early as possible

### **Set up a service for home delivery of spectacles in collaboration with local businesses**

### **External relations cell**

- The students working in the field of research face a huge problem, contact hundreds of professors and institutes for the same purpose, Internship
- ER Cell will contact professors all over the world, representing all the students of IITG, they will request for projects from the academicians and float them at once for the students.

Apart from this, I will be carrying forward my long term work from senate 2018-19

**Experiences (Credentials if any):**

1. Senator, SGC
2. Alumni head, MESA
3. Event Manager, Technical Board
4. Senior Core Team member, Social Service Club
5. Senior Core Team member, MESA
6. Hostel Maintenance Panel, 2018-19, Umiam hostel
7. Placement team 2017 and 2018 volunteer
8. Apart from those above, I have also worked with many different teams, events etc. and have gained relevant work experience, in management, policy making and conflict resolution.

**Declaration by the candidate:**

I hereby declare that the above information is to the best of my knowledge. I do not have any disciplinary probation by the Institute and will abide by the rules and regulations laid for Gymkhana Election. I do not have any active backlogs to be cleared.

I know that any false information in this nomination form will lead to cancellation of my nomination and disciplinary action.
